

# Slot-die Applicator

## The smart way to start your up-scaling research

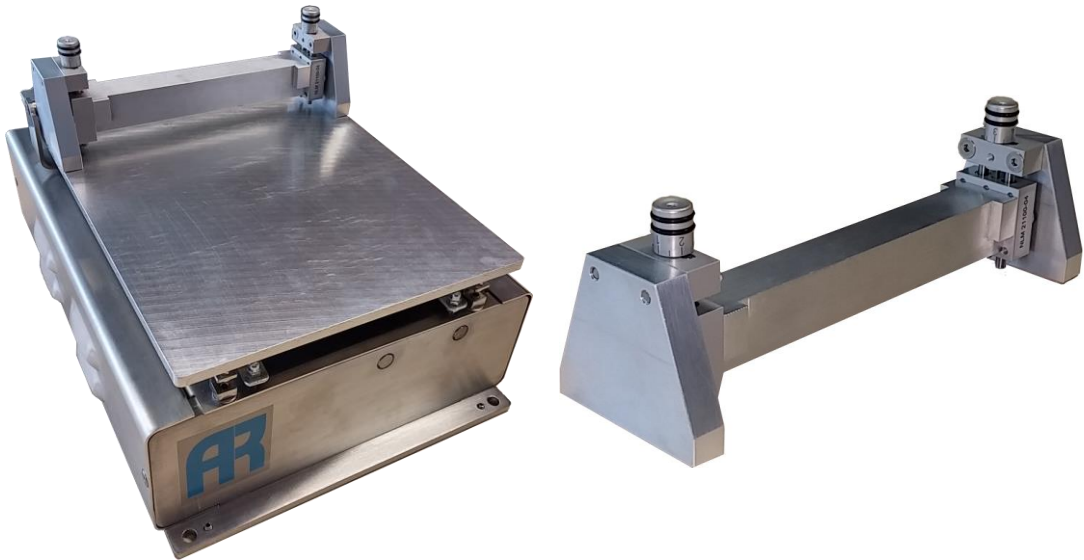

- Transform a film applicator into a slot-die printer
- Slot-die head width up to 100 mm
- Precise height adjustment over more than 6 mm
- As bundle with slot-die head, syringe pump and consumables or customized to hold your choice of slot-die heads

# Precision Film Applicator

## Film applicator developed for printed electronics

- Print functional films with nanometer precision
- Small size (only 200x300x125 mm), large deposition area (150x150 mm)
- Ideal for precious lab space with minimized heat dissipation, especially important in Glovebox environments
- Free positioning of control units for motion and temperature
- Features:
  - 1-100 mm/s
  - Up to 120 °C hotplate temperature
  - Adjustable applicator
